

PHP Contents

WHAT IS PHP, AND WHY DO I NEED IT?	7
WHAT YOU NEED TO GET STARTED	7
INSTALLING AND TESTING EASY PHP	8
Troubleshooting	15
Course Files	15
WHAT IS A VARIABLE?	17
PUTTING TEXT INTO VARIABLES	19
VARIABLES - SOME PRACTICE	20
MORE VARIABLE PRACTICE	24
Joining direct text and variable data	25
Adding up in PHP	25
SUBTRACT, DIVIDE AND MULTIPLY	27
CONDITIONAL LOGIC	33
If Statements	34
Using If Statements	36
if ... else Statements	38
if ... else if Statements	39
MORE CONDITIONAL LOGIC	43
Comparison Operators	43
NOT Equal To	44
Less Than and Greater Than	45
Less Than or Equal To and Greater Than or Equal To	46
The Switch Statement	47
Logical Operators	49
Boolean Values	51
Operator Precedence – a List	53
HTML FORMS	54
The HTML Form	54
FORM Attributes	55
Method	55
Post	56
Action	56
Submit	57
Using PHP to get values from a HTML form	57
Getting values from a Text Box	57
Checking if the Submit was clicked	59
Setting the ACTION attribute to a different PHP page	60
Keeping the data the user entered	62
How to handle other Form Elements with PHP	64
Radio Buttons	64
Checkboxes	68
LOOPS	74
For Loops	74
A Times Table Programme	76
Code for the PHP Times Table	77
While Loops	80
Do While loops	81

The break statement -----	82
For Each -----	82
ARRAYS -----	83
What is an Array? -----	83
Setting up an Array -----	83
Getting at the values stored in your arrays -----	87
Array - Using Text as Keys -----	88
Arrays and For Each -----	89
Sorting Array values -----	90
Random Keys from an Array -----	91
The count function -----	91
Script One - Set up an array and print out the values -----	92
Script Two - Set up an array with your own Keys -----	92
Script Three - Set up an array with mixed values -----	93
Script four - Assign values to an array: Method Two example -----	93
Script Five - Looping round values in an array -----	93
Script Six - Looping round values in an array: example 2 -----	94
Script Seven - Using text as Keys -----	94
Script Eight - Looping round an Associative array using For Each -----	94
Script Nine - Sorting Arrays (Associative) -----	95
Script Ten - Sorting Arrays (Scalar) -----	95
STRING MANIPULATION -----	97
Changing Case -----	97
Trimming White Space -----	98
Shuffle characters -----	99
Finding one string inside of another -----	100
Splitting a line of text -----	102
Joining text into a single line -----	104
PHP and Escaping -----	105
String function list -----	106
PHP FUNCTIONS -----	111
What is a function? -----	111
Variable scope and functions -----	113
Functions and arguments -----	114
A Function to check for blank Textboxes -----	116
Getting values out of functions -----	118
By Ref, By Val -----	120
PHP Server Variables -----	122
HTTP Header() Function -----	123
Including scripts -----	126
SECURITY ISSUES AND FORM ELEMENTS -----	128
htmlspecialchars() -----	130
htmlentities() -----	131
strip_tags() -----	132
WORKING WITH FILES IN PHP -----	135
Opening a file -----	135
Checking if the file exists -----	141
Writing to files -----	141
Working with Comma delimited files (CSV files) -----	143
Reading a text file line by line into an array – other options -----	145
File Locations -----	147
WORKING WITH DATE AND TIME FUNCTIONS IN PHP -----	149
The date() function -----	149
Day of the week Characters -----	150

Month Characters-----	150
Year Characters-----	150
Time Characters-----	150
Other Date and Time Characters-----	151
PHP AND MYSQL-----	154
Creating a database using phpMyAdmin-----	156
Setting up Fields in your database tables-----	159
Adding records to a MySQL Table-----	164
MANIPULATING A MYSQL DATABASE WITH PHP-----	168
How to access a MySQL database with PHP code-----	168
Reading records from a database-----	172
Structured Query Language-----	174
Adding records to a database table-----	177
Using HTML Forms with your Database-----	180
Magic Quotes-----	181
SQL injection-----	182
Limit the characters that a user can enter:-----	186
OTHER THINGS YOU CAN DO WITH SQL-----	187
Create a Table using SQL-----	187
Updating a record in a table-----	188
Deleting a record in a table-----	189
Using WHERE to limit the data returned-----	189
USER AUTHENTICATION WALKTHROUGH-----	191
The login page-----	191
Checking if the user is logged on or not-----	197
Log Out-----	198
Register a new user-----	199
Other considerations-----	202
BUILD YOUR OWN SURVEY APPLICATION-----	204
Set a Question for your Survey-----	204
The database-----	206
Setting a question – the code-----	210
Add the Vote to the database-----	216
Viewing the results of the survey-----	218
Display a graphic for the results-----	221
HOW TO BUILD AN ONLINE FORUM-----	224
Setting up a Database for a bigger project-----	228
The Forum Sections Table-----	230
The Members Table-----	232
The Post Tables-----	233
The Reply Tables-----	234
THE PHP CODE FOR THE FORUM-----	237
The forumTest.php page-----	237
The pageThread.php page-----	246
2D Arrays-----	251
The pageReply.php Code-----	258
The Reply Form-----	265
The results.php page-----	267
Posting a Topic on the Forum-----	270
The resultsP.php page-----	272
Final Project-----	276
